- 2 wire nuts
- 1 conduit clamp

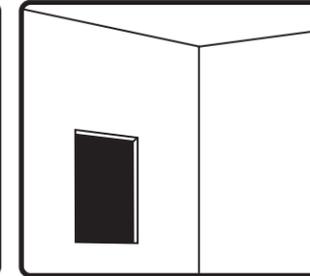

**IW Series** | Install Instructions For:  
IW500i speaker

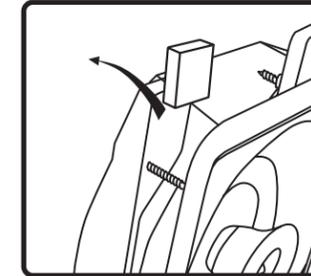

1.435.647.9555 | 800.647.TUBE | www.soundtube.com

**1.** Unpack speaker and grille. Leave paint mask in place until speaker is ready to install.

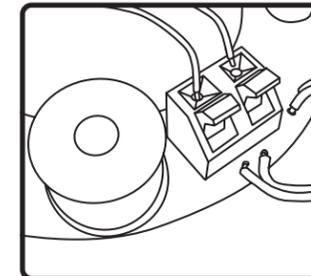

**2.** Use provided cut out template to make hole. Use Rotozip or other tool to cut hole in wall. Hole size, 7.5" x 10.75"

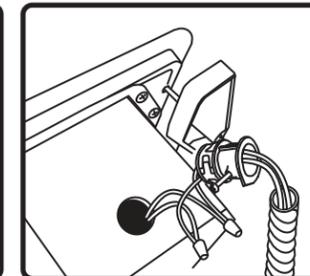

**3.** Remove styrofoam inserts between mounting bars and speaker baffle. (4x)

**IW500i**

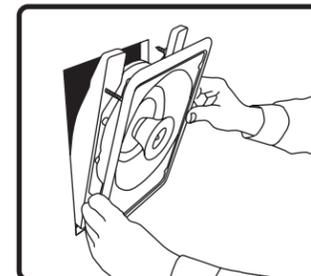

**4.** Connect speaker wires to terminals on rear of speaker.

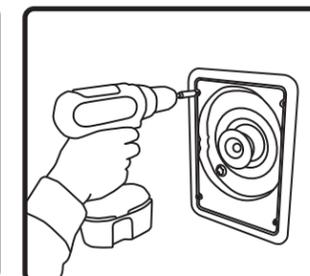

**IW500b-Backcan**

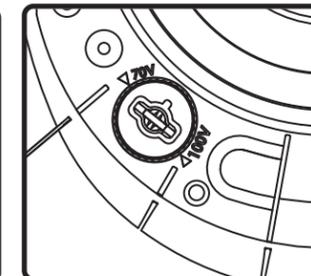

**4.** Connect speaker wires to wire leads using wirenuts. Push wire nuts into backcan and insert conduit clamp.

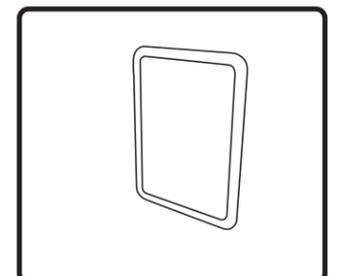

**5.** Insert speaker in to hole (bottom first) with mounting bar on inside of wall.

**6.** Remove paint mask. Then tighten the four clamping screws. **DO NOT OVER TIGHTEN.**

**7.** Adjust tap switch to proper setting. Switch is preset to maximum tap setting in 70.7 V mode (33 W)

**Note:** Replace paint mask if painting wall after speaker is installed.  
**8.** Insert Grille into lip of bezel and press gently into place.

**IW500b: Steel signaling speaker enclosure listed UL 1480**
